Veterans Financial Readiness Companion

Your next mission deserves a clear plan—not a pile of financial alphabet soup.

WELCOME

Your service is part of your story. This page is here to help you protect what you built, understand what is being reported, and prepare for the goal ahead—without judgment or pressure.

Three clear moves

01
REVIEW

Pull all three reports. Check names, addresses, accounts, balances, payment history, and inquiries. Your own report check does not hurt your score.

02
PROTECT

If you are deployed away from your usual duty station, consider a free active-duty alert. A security freeze is another option; contact each bureau separately.

03
POSITION

Match today’s actions to the mission: stable housing, reliable transportation, business readiness, homeownership, or a stronger monthly plan.

TODAY'S 15-MINUTE MOVE

☐ Write down one financial goal for the next 90 days.

☐ Open one credit report and circle only information you genuinely believe is inaccurate or incomplete.

☐ If homeownership is the goal, gather your service records and learn about the VA Certificate of Eligibility—VA and lender requirements still apply.

OPEN THE CREDIT REPORT ERROR DISPUTE STARTER KIT

Use the core kit for the review checklist, first-round verification letter, bureau mailing addresses, and certified-mail tracking steps.

Helpful official resources: CFPB military credit protections • VA home-loan eligibility • AnnualCreditReport.com
